

## List of engagements from inception till 31st March 2024.

This document includes the list of organisations with whom Social Synergy Foundation (SSF) has engaged or continues to remain engaged. This list is updated annually in April, and wherein the engagements are classified into four types as follows. (It is likely that a particular organisation may feature across more than one type.)

- A. **Direct engagement with non-profits** includes those non-profits with whom we had or have direct contractual agreement.
- B. **Direct engagement with social enterprises** includes those for-profit organisations with whom we had or have contractual agreement.
- C. **Support to grantees of philanthropic organisations as part of tripartite agreements** includes those non-profits with whom we had or have a contractual agreement at the behest of or ‘call for support’ from one or more of their grantors.
- D. **Engagements undertaken on a voluntary basis** include those non-profits with whom we do not currently have a contractual agreement (though we may have had one in the past), but continue to support their organisational development efforts.

*(All engagements are in ascending alphabetical order of the names of the respective organisations.)*
